A PLACE TO LIVE
Isn't easy to find these days. So if you have one, take good care of it. See that fire hazards are eliminated. Do not allow rubbish to accumulate in cellar or attic. Insure your home property to full value. Ask us about rent and rental value insurance which in case of a destructive fire will pay the rest for other quarters while repairs are being made. And don't overlook protecting your property with windstorm, hail, explosion and other forms of insurance coverage. Ask us about the new Comprehensive Personal Liability policy which protects you against lawsuits arising from accidents suffered by others, for which you might be held responsible. This agency is equipped to make you complete insurance service. May we serve you?

Twenty Models of Other Makes of Cars Cost More!

There are hundreds of thousands of people who should be intensely interested in what we are writing here.
They are the people who paid more for their cars than a Cadillac costs—and still didn't get a Cadillac.
You see—there are five manufacturers of motor cars who produce a total of twenty models which actually cost more than the lowest-priced Cadillac. And during recent years, hundreds of thousands of people have taken title to these higher-priced models.
Surely, a large percentage of these owners did not understand, at the time of purchase, how comparatively little a Cadillac costs. They assumed that a Cadillac must cost more—because of its reputation. So they paid for a Cadillac—and still failed to get all the wonderful things a Cadillac provides.
They failed to get the performance of its great master high-compression engine... so smooth and quiet that the car seems to move by automatic propulsion.
They failed to get the soft, gliding Cadillac ride that makes every road a better road, and makes the longest journey a day of pleasure and relaxation.
They failed to get the wonderful prestige which marks the Cadillac owner as a man distinctly apart.
And, of course, they failed to get the priceless personal satisfaction of owning the "Standard of the World"—the car which, for fifty years, has been built to the highest standards it is practical to attain.
Surely, they won't want to miss all this again. It's a lot to lose—especially when it costs no more to have it.
If we already have your order for a Cadillac—please be assured that you have made a wise decision—and stand firm until your car is ready for delivery.
But if we don't have your order—better come in and see us today. We are certain you don't want to pay the price of a Cadillac—and still not get one!
