## Would Need 9-Mill Tax Hike to Retire Twp. School Bonds

By RAY DENNIS  
Residents of the Southfield township school district will vote Tuesday, Dec. 4 on a proposed \$950,000 bond issue for construction of a new high school gymnasium and additional high school and elementary grade classrooms.

Superintendent Glenn Schoenhalz emphasized that the deadline for registration is Friday, Nov. 23. Due to a new state law, effective Sept. 28, 1951, persons must register with the township for school elections. This ruling means that residents who previously have only been registered with the schools, must now register with the township.

VOTERS WILL ALSO decide on a four-mill increase on the equalized valuation for a maximum of 20 years to pay off the bond issue; and a hike of five mills for a five-year period for a building and site sinking fund.

THE SCHOOL BOARD is preparing election data and information which will soon be mailed to all school district residents.

A \$1,300,000 bond issue was approved by electors in 1949. The new high school at 10 Miles and Labser, which is nearing completion was built with these funds. However, the original amount was insufficient to construct a gymnasium.

Present school population in Southfield is 3,172 grades 1-10. This figure represents an increase of 502 over last spring.

Following consolidation in 1947, there were 1,667 enrolled in kindergarten through grade eight. In these grades, there are now 2,771 pupils.

The superintendent stated, "In order to house these children, every available space has been utilized. This includes basement rooms, corridors and other sub-standard space."

"SOME RELIEF HAS been obtained by recent construction of elementary school additions. Transfer of 258 eighth grade pupils to the partially completed high school has also given some relief to overcrowded elementary schools. However, the total 100 increase is too large to be absorbed, and it has been found necessary to place nearly 300 first graders on half-day sessions."

There are 2,113 children under five who will soon enter the Southfield school system. School officials claim that with this situation, and the addition of the eleventh grade to the new high school next year, present facilities will be inadequate to meet classroom needs.
