Children's Theater Names New Series

The Birmingham Children's Theater Series for 1951-52 will bring three outstanding stage plays to the Birmingham children this season. These plays, sponsored for the past eight years by the Birmingham branch of the American Association of University Women, are presented at the Birmingham Theater, usually on school holidays.
The first play will be staged by the members of the Children's Theater Players and the other two will be presented by outside dramatic companies.
This year the work group will open the season in November with the "Reluctant Dragon". The Michigan State College Players will do "The Ghost of Mr. Penny" in January, followed in April by "Aladdin and His Wonderful Lamp" produced by the Wayne University Players. Exact dates and ticket sales will be announced later.

PACKARD THUNDERBOLT POWER
means Performance plus...maintenance minus!

There are many things to look for, in a power plant, and the most important of all is . . . the name of its maker.
Packard is known throughout all the world as "America's Master Motor Builders" . . . and today's new Packard Thunderbolt engines offer you the best all-around combination of silent smoothness . . . efficiency . . . and service-free durability.
Specifically, they give you the peak efficiency of America's biggest compression engines—and the service-free simplicity of a design with up to 25% fewer working parts than in engines of comparable power.
And durability? Fact: Of all the Packards built, in the last 52 years, over 50% are still in service . . . and many of them have rolled up individual records of over a half million miles.

It's more than a car—it's a **PACKARD**
