Go Ahead and Order It!

Right at this moment, there are thousands of people in America who are just about ready to end all compromise insofar as motor cars are concerned—and order a Cadillac.

If you are one of these—go ahead and order it! It will be the wisest motor car decision you ever made.

First of all, consider the car's reputation. Wherever highways lead, there is general recognition that Cadillac is the Standard of the World. Not only is this an endless source of pride and satisfaction to the Cadillac owner—but it is incontestable proof of Cadillac's historic quality. Such a reputation could come only from long-continued superiority.

And then consider what Cadillac brings you in terms of every-day satisfaction.

Every mile you drive, or ride, is a sheer delight. The word for it is wonderful—and the proof of it can be found in an hour at the wheel. To ride is to rest—and to drive is to relax.

But over and above all this is an argument in favor of Cadillac so practical and conclusive that it should be hard for anyone to ignore:

The lowest-priced model of this great and distinguished motor car is priced competitively with numerous and varied models produced by other manufacturers. Yes—every day—scores of people actually pay the price of a Cadillac—and still don't get one!

Add to this moderate cost the further fact that few cars—of any price—will run farther on a gallon of gasoline—and even economy points to Cadillac!

So—if your heart is set on a Cadillac—come in and order it. There isn't a single logical reason why you shouldn't do so.
