## Public Zoning Hearing In Southfield Twp. Thursday, Sept. 6

Proposed rezoning of a 40-acre site on Nine Mile road, near Southfield, to permit construction of a television antenna will be discussed at a public hearing at Southfield 10 school, 10 Mile and Berg roads, Thursday, Sept. 6 at 8 p.m.

The property is now used by the Detroit Gun Club. Fort Industry Co. of Birmingham, owners of several radio and television stations including WJBK-TV, Detroit, has requested the board for permission to construct a television antenna, and building there.

Also to be discussed at the hearing is the proposed rezoning of certain lots in Grand River Park subdivision from residence one to commercial one.

How long since you lifted the hood of a car, and took a good look at what's beneath?

We like to have folks do that with a Buick.

You'll find that broad bonnet isn't put there for show. It's packed with horsepower—high, wide and handsome—more horsepower than normal drivers will ever use in full.

And—if you're up to date on modern features—you'll find that this bonnet is packed with these too.

Do you know, for example, that every new engine introduced or previewed in recent years is built on the valve-in-head principle?

Score one for Buick. No Buick engine has ever been built in any other way.

Do you know what it takes to make full

use of high compression? A valve-in-head engine!

Score two: Buick has been stepping up compression ratios for years.

But Buick has blazed one trail which other engines still haven't followed—don't ask us why.

Every Buick has a Fireball Engine which, as we've said before, is like having a string of comets by the tail.

Faet is, in every flame-packed cylinder there is a comet—rolled into a swirling ball by a special turbo-top piston—touched off by a flashing spark every 5 inches you travel in a Buick.

That's why we're proud to show folks that Buicks have a Fireball Engine—and prouder still to have them take one of these thrilling performers out on the road.

Want to try it? Come in and see us soon.
