"... well, why should I have

the right clothes at the right time?"

That's a good question. And the answer can be found only in your own daily life. "If you're like most men in Birmingham, you have a job, a family, a place in the community, or you're getting ready to have one. You like people to think well of you, to respect your opinions and your

In going about your affairs, you meet people: friends, neighbors, business associates. And how you rate with them, how you measure up in their minds depends a lot on the impressions you make.

That's why the slogan—"The Right Clothes at the Right Time"—hits close to home for every man. So why don't you give your wardrobe a closer look. See what you lack, what you should replace, what you should replenish.

Because the right clothes for the right time need not be a big ex-pense. It can start with a new suit—a few new shirts—a new hat or shoes.

With that beginning, you will soon see how much better you look, how far better you feel.

Yes, you will see that the Right Clothes at the Right Time can make a big difference in your life.
