**Tomasino Signed For Sunnybrook**

Hugh Ross, manager of Sunnybrook Golf Club, announces that in Larry Tomasino, he has signed one of the top young professionals in the state. Tomasino will take over the pro shop at the popular daily fee golf course on Mound rd., between Mound and Van Dyke, this season.

Tomasino has been one of the top public amateurs in the Detroit area since he started in several sports as an athlete at Denby high school in Detroit. He played golf there and at Michigan State

College. He turned professional last season at Battle Creek Country Club where he served as an assistant.

On the golf course, Ross stated that the traps are being worked over and will receive new sand. In the clubhouse the ballroom floor is being refinished and in the locker rooms, a new hot water heating system has been installed.

Mrs. Hugh Ross will have charge of the kitchen and dining room again and Joe Reed will be in charge of the bar.

Originally planned as a two-night stand, "East Lynne" packed the "Opera House" for three nights last week. The villain was hooded and hissed in the traditional manner and the cast and entire entertainers were applauded for their efforts. Peanuts, popcorn and soft drinks were sold by costumed youngsters from Franklin school during intermissions. Bouquets for the directors and members of the cast at Saturday night's performance were topped by a fantastic creation in vegetables presented to E. G. Dick Lewis who portrayed Captain Levinson, the villain. The play netted a considerable sum for the PTA fund for extra-curricular equipment for Franklin school.

The traditional cast party after the final performance was given by the Lewises at their home on Crestwood drive, arranged and decorated in the manner of an old inn; checkered tablecloth, mustachioed waiters and all. Hosts and guests were attired fittingly in 19th century costumes.

**Ahead—the Nicest Miles in the World!**

Well, the day has come! You have your beautiful Golden Anniversary Cadillac—and are off on that cross-country journey you've so eagerly awaited.

You're full of hope and anticipation—but almost afraid it's too good to be true. Can any car perform and handle the way people say this one does?

You come to the end of the street that opens into the cross-town thoroughfare—and the big, easy-acting brakes settle you down to the softest, smoothest stop you ever experienced in all your life.

You touch the throttle, and the great engine starts you out like the flight of an arrow—smoothly and swiftly and quietly.

Almost before you know it, a light turns

red—and, once again, that easy, velvety stop. And then the green—and again that swift, eager move into action.

Stop and go—red and green... and pretty soon it dawns upon you that you never dreamed of driving a car that handled and performed like this.

Wonderful in city traffic—no doubt about it!

And then the cars thin out about you—the traffic lights stretch farther and farther apart—and you find yourself on the open road.

Instinctively, your foot goes down on the throttle; but, quickly, it eases up again. For you find yourself really rolling in a couple of hundred feet! So you do a

little experimenting until you find the spot where the car saves and speeds itself, and then you settle back and relax.

You scarcely seem to be moving at all. You handle the wheel with the weight of your hand. You're comfortable—resting—at peace with the highway! The sun rises higher and the road beckons on.

"Where did we plan on stopping tonight?"

"Better take a look at the map and see what's on down the line. We're going to get a lot farther than I ever dreamed we could!"

Yes, it's true what they say about Cadillac.

Better come in and see it—and drive it—while you're in the mood!
