We Favor Good Fire Protection But Will

**VOTE NO**

On the proposed bond issue for a \$350,000.00 east side fire station.

An extravagant new fire station will not reduce present residential fire insurance premium rates.

Royal Oak is planning two fire stations for the same amount we are asked to pay for one.

Southfield Township, a community of 18,000 population, has recently completed three modern fire stations capable of housing 6 trucks and their personnel for a grand total of 63,000.00.

Birmingham's proposal bond issue for one station, with interest, will total 432,000.00. This represents about half of a master plan for which you may be committed.

**Ultimate Debt \$864,000.00**

Let's keep our present central fire station — modernize our equipment if necessary, to retain our fifth class underwriter's rating.
