Federal Unemployment Compensation for Korean veterans similar to the Servicemen's Readjustment Allowances paid World War II veterans, will be paid after October 14, 1952. Luther C. Olson, manager of the Pontiac office of the Michigan Employment Security Commission announces.

Payments will amount to \$28 a week for not more than 26 weeks, and are paid by the federal government through the MESCC's claims division.

To be eligible, a veteran must have served in the armed forces after June 26, 1950, and must have been discharged under conditions other than dishonorable.

Unemployment compensation under this program may not be paid within 31 days after discharge if the veteran receives \$100 in mustering out pay; not within 61 days if he receives \$200

of such pay; not within 91 days if eligible for \$300.

(THIS PROVISION is inserted because \$100 is paid overseas veterans with more than 90 days service; \$200 to veterans with more than 90 days service in the United States, and \$100 to veterans with less than 90 days service.)

The veteran's readjustment assistance act, under which this unemployment compensation is payable to veterans of the Korean conflict, provides that veterans must serve a one-week waiting period after their claim has been filed.

They will be eligible for compensation in the second week, if still unemployed. He must be able to work, and available for work.

If the veteran has benefit rights under any state unemployment insurance program, or under the Railroad Unemployment Insurance Act, he must first claim such benefits.

**IN MICHIGAN**, Korean veterans wage credits in employment covered by the Michigan employment security act are frozen as of the time they entered military service. This entitles them to state benefits if they had previously earned any wage credits.

However, Olson said, many of the Korean veterans have entered the armed forces without having any work experience at all. The Federal Act is of particular benefit to these young vets.

Post-Korean veterans who want to learn how to fly will get 75 percent of their flight training costs paid by the Government, under a new GI Bill signed by the President in mid-July. The rest will have to come out of the veteran's own pocket.

The new GI Bill, Public Law 550, applies to veterans who served since the outbreak of fighting in Korea in June 1950. Their service need not necessarily have been in Korea.

Under the new GI Bill, the VA will make monthly payments directly to veteran-trainees, and not to the school. Out of the allowance, veterans will have to meet all their own expenses, including tuition.
