**Do you believe in <sup>Dollar</sup> signs?**

Do that—and look at the dollars on the price tag—and we know what you'll find out: If you can afford a new car, you can own a Buick—and boy, what fun that will be! Equipment, accessories, trim and models are subject to change without notice.

There are a lot of signs to guide you to the best buy in automobiles. Popularity is a good sign. It means that a lot of people have tried a car and found it good. So it's important to know that Buick is today—and has been since 1938—the most popular car outside the "low-priced three."

Room, comfort, power, ride are good signs. So it's important to know that you can pay hundreds of dollars more and not beat the room and comfort you get in a Buick SPECIAL. Nor, at the price, carry you match its power. And only Buick gives you a real million dollar ride.

Doesn't all this give you a hint? Doesn't it suggest that you ought to try out a Buick—sample its Fireball 8 Engine—find out how it takes you over the road—feel the sure control that is yours on curves—discover its "big car" room and smoothness?

When better automobiles are built

will build them
