From where I sit... by Joe Marsh
Well, What Do You Know?
 Do you believe in a bunch of old tales about lightning—about how it's attracted by cats or the warmth of cattle... how it never strikes in the same place twice... or how it's liable to turn milk sour? Lots of people often do—but they're wrong.
 Dad Hawkins inspired this column today. He's really studied up on lightning since his own cow-bara was struck that time.
 "Trouble is, most of us don't know half enough about the subject," Dad says. "And about half of what we do know is false!"
 From where I sit, Dad's statement applies to a lot of things besides lightning. Too many people think they know their neighbor's wrong when he votes for his candidate instead of theirs. Some people even resent our right to enjoy a friendly glass of beer if and when we choose. Opinions based on misinformation and prejudice, instead of being "grounded" on true facts can cause more damage than lightning ever did.
