WE HEARD IT SAID BY—
Malcolm Ferguson, Pierce School principal, "In looking over The Eccentric's Happenings of Five Years Ago column, I noticed last week that my name was mentioned as taking over the principal's job at Pierce. In that period I have seen a tremendous growth in this section of town. Last spring the attendance at Pierce school was about triple that when I first came here."

Board Approves Telegraph-9 Mile Traffic Signal

A traffic signal for Telegraph and Nine Mile roads, was approved by the Southfield township board Tuesday evening.

In a letter received by the board from the state highway commission this week, it was stated that a recent survey at this intersection showed a traffic light was warranted.

Cost of installation will be approximately \$800 and is to be shared equally by Southfield and the State high department.

Supervisor William Roeser stated that a signal at this corner is needed because the new fire hall is nearby. A light will make it easier for fire trucks to cross there, he pointed out.

In other business Tuesday, a \$1,180 appropriation from the general fund to road maintenance was approved. This expenditure will be used for scraping and graveling.

BED WETTING CORRECTED

A NEW METHOD DISCOVERED FOR SOLVING THIS DISTRESSING PROBLEM

If you are disturbed by your child's bed-wetting, investigate this new unique method for correcting this condition. Many forms of treatment have been tried in the past with little or no success. Now, a new approved method has been devised that is generally successful in ridding the child or adult of this humiliating habit in three to four weeks. This method is used on children over five years of age, and adults with no organic causes.

The new method is really a conditioning of the child or adult, whereby he usually stops the bed-wetting habit all by himself. A dry child is a happy child. It was developed by a doctor and is endorsed and approved by many leading physicians. No drugs or attachments are used. Further information regarding this new scientific discovery can be obtained by telephoning **Midwest 4-0767**, or you may drop a postcard to **KING RESEARCH LABORATORIES, 517 Book Bldg., Detroit 26**
