I'm making a list of calamities that could happen to me

Gloomy, maybe, but SMART

It's better to be gloomy like this for an hour than sorry for a lifetime that you didn't have complete insurance protection against possible disasters.

List 'em now and do something about insurance — then forget your fears and BE HAPPY.
Might your car be stolen or burn up? Might you kill or injure somebody with it? Might your house or business burn or be blown away? Might your valuables be lost or stolen? Might an employee or tradesman sue you for injury on your premises? Might your dog bite a neighbor? Might you hit somebody with a golf ball? Might an employee embezzle from you?
Worry hard about these things for a while. Then let us protect you against 'em with America Fore policies.
