#### Bamboo Draperies DRAMATIC ...

WITH BEAUTY THAT LASTS FOR YEARS

Bamboo draperjes heighten the dramatic theme in any room. Here, as with no other fabric, may be achieved the soft dif-fused light so desirable with modern decor. Installed on traverse tracks with pull cord operation, they can be drawn completely to the end of the windows to form corner draperies.

PROPOSED BASEBALL league for boys between the ages of 12 and 15 was discussed at an organizational meeting at the home of Chairman Don Chaffee, 1099 Glenhurst Thursday evening. Name of the loop will be Birmingham Intermediate Baseball league. Plans call for four teams, with merchants asked to sponsor each. The recreation department will help with field maintenance and furnish bats and balls. Players

RIEHL IMPROVEMENT CO.

# "Out of thin air" HIGHEST HORSEPOWER

O, we didn't have to build a new engine to do it.

We took Buick's valve-in-head Fireball Engine-which makes the most of high compression. We drew on 12 patient years of Buck carburction research.

And we came up with more might, more miles, from gas-right out of thin air, in more ways than one. 6

When you talk about "miles per gallon" you think of fuel. That's what you buy. But air's free - and for every gallon of

gasoline, a busy engine can gulp more than 8,000 gallons of air. The problem is to deliver air in the right proportions, throughout the full range of speeds at which you drive.

A carburetor-big enough to supply the air needed at full throttle-can be wasteful in stop-and-go driving.

A carburetor sized for thrift in city traffic literally smothers your engine when you really give it the gun.

So Buick engineers came up with the Airpower carburetor -a four-barrel automatic - and here's how it works.

Loafing along, two barrels are working, two stay closed. And you get a lowspeed thrift and smoothness that's out of this world.

As you pick up speed, the "stand-bys" smoothly come into play – feeding not just more gas, but more air too-which means that you keep on getting maxi-mum power from each drop of fuel.

You have 170 effortless horsepower when you need it—a tremendous reserve ready to go into instant action at the nudge of your toe.

You have the satisfaction of knowing that you get this power with a frugal us

of gas. At 40 you use less gas than you formerly used at 30.

That's the story of Airpower carburetion in factory facts and figures.

statistics can't tell you the breathng joy of heading for new horizons great-powered new ROADMASTER.

ter come in soon. Lots of other folks flocking into our showroom these to see the greatest array of new cks we've had in years.
