**B'ham Student Bride-Elect Plans July Vows Sails July 5 Amid a Whirl of Festivities For Continent**

An idle summer is just not in the cards for Middlebury senior Barbara Watkins. Barbara, daughter of Mr. and Mrs. V. B. Watkins of Henley drive, no sooner completed her classes on the Vermont campus, than she began packing for her July 5 sailing date to Europe.

As a member of a group of ten college girls going abroad under auspices of the Experiment in International Living, Barbara will spend a month living with a family in Brussels, four weeks bicycling through France, and a week in Paris.

During her stay in Brussels, she will speak French and join in the family's daily activities. On the cycle tour, she will be hostess to the member of her Belgian "family" nearest to her own age.

FOUNDED IN 1932, the Experiment in International Living aims to promote international understanding and tolerance. American students are given the opportunity to actually live in foreign homes and thus get more than a tourist's view of European life.
