### there's more to cleaning a rug than just washing its face

Rug cleaning is no job for an amateur. A knowledge of every type of rug construction is needed, and how to remove deeply imbedded dirt.

Rugs must be cleaned scientifi-cally ALL THE WAY THROUGH if all the dirt is to be removed— they need gentle handling if you are to get maximum life out of them—they must be dried under perfect temperature control to protect their threads.

Only a rug that has been PRO-FESSIONALLY cleaned can keep that "like-new" appearance and springy texture month after month. And bright, cheerful, new looking rugs will add freshness and beauty to your home.
