

Another increment to Southfield township's general fund was found Tuesday night when board mem-

bers, on the recommendation of the planning commission, approved a \$40 fee to accompany tentative subdivision plats submitted to the township.

Main To Discuss Troy Township's Drain Problems

Troy township board members set Tuesday, July 1, as the date for a special meeting with Oakland County Drain Commissioner, Ralph A. Main.

Main will be present to discuss the commission's plans for drainage and sewage improvements in the township and to explain the proposed enlarging of the Wye Drain on East Maple.

Road Resurfacing Contract Awarded

Troy township officials have been advised that the Oakland County Road Commission has awarded a contract for the resurfacing of Liversols from Fourteen Mile road to Eighteen Mile road to the Cooke Contracting Company, Detroit. Cost of the project was set at \$67,917.40.

Work on the 3.91 miles of road is expected to start in mid-July.

A Message

To Our Friends and Neighbors from DEAN COFFIN, Inc. 348 EAST MAPLE BIRMINGHAM

This is all about Report Cards. We know a Responsible Citizen who is doing a fair job as a Progenitor. He has several Carbon Copies of himself in various stages of Wisdom and Stature. The other morning he and his Life Partner put the boys on a bus headed North for a camp. There followed the usual Briefing on What To Do About Laundry, Brushing One's Teeth, and Taking Care of Each Other. Then Pop passed out a Few Bucks. The Little Bride had spent the past three weeks checking into the Sock Situation and Sewing Name Tapes. She was exhausted by it all. There was a definite Let-down as the Greyhound rumbled off into Vacation Land.

The Anti-Climax didn't last long. That same day the boys' Report Cards arrived by mail. Pop believes the Four Sons rearranged the entire School System so the cards would arrive AFTER their departure. He'd like to interview anybody at all who can explain why any boy of his should get a D in Science. Why, when he was a mere Stripper he could call all the Diatoms by their first Names. Unfortunately, school is closed, the teachers have Taken a Powder, and the boys are deep in some Tamarack forest Laughing Their Little Heads off. You just don't Correspond with boys about such matters. It's a Man-to-Man Subject.

Report cards tell you a lot. They're a good way to measure your performance. In this new business of ours we've been making out some careful report cards on how much people are spending for the family meals. We have developed a Table which tells us approximately how many pounds of meat, fruits, fish, vegetables, poultry, and other perishable foods various sized families eat. And we now have a comprehensive collection of family food costs against which you can check your own expense.

You see, we're trying to help people reduce their family food bills. Anytime the price of Ground Round Steak increases 400% in ten years, that's the time to analyze how you are doing compared to other families. If you want to know whether your score is high, medium, or low—we can give you a fairly accurate Measuring Stick with which to grade your own food expense.

So anytime you want to check up on your food bills, give us a ring at Midwest 4-8500. We also help you do something about it. Dean Coffin, Inc., was organized, not as a freezer sales company, but as an organization to help the Wage Earner beat down the High Cost of Living.

On our food plans, we not only install a Ben-Hur (chest type) or Sub-Zero (Upright) freezer in your home, but we make available to you TOP QUALITY meats, fish, poultry, vegetables, fruits and other items AT VERY ATTRACTIVE QUANTITY DISCOUNT PRICES. These savings on food ACTUALLY pay for your freezer. You may finance the food, you may finance the freezer, AND BY FINANCING, YOU WILL SPEND LESS RIGHT NOW than you are spending at the grocery store.

So we won't leave you spluttering, once your own Report Card is made out. We help you do something about it, in case you're getting a D-minus in the Home Economy department. And the happy part of all this is that the Food delivered to your home on the Dean Coffin, Inc. Food Plans is better food than what many families have had since before the war. Our Customers tell us all the time how delighted they are with it.

Now if someone offered to give you twenty or thirty dollars a month, would you think that one over? Come on, folks. Let's not Pace the Floor and Grind our Molars about food prices. Let's DO something about it!

We'll be happy to come to your home, make out a report card for you, and estimate the entire plan as to pounds of food, cubic feet, quantity discount, estimating savings, and the happiness and relief you'll have on our plan.

Cordially,

Dean Coffin Inc.

See TIDE magazine, May 9: "The home freezer-frozen foods sales tie-up is particularly logical. It offers housewives a way to combat high food costs. Housewives can look forward to a new way of life via such plans: less shopping, fewer bundles, easier work, lower prices, more convenience."
