City to Amend Peddler Ord.

The city commission Monday night believed it had found when to enforce the peddler license ordinance and how to apply it to charitable organizations operating a non-profit activity.

City Attorney Forbes S. Hascall read his recommendations on an amendment to the peddler ordinance that would permit the city to issue one license to fraternal, religious or other organizations to engage in activities that do not constitute a business of hawking peddling and vending.

THE SINGLE license would carry on its face the number of people engaged in the organization's venture and the license fee could be remitted to the participating organization gaining such a license.

Hascall was instructed to draw up the amendment in formal form for adoption.

NEWLY-ELECTED PRESIDENT of the Detroit chapter of the American Society of Women Accountants is Gertrude Hindelang, CPA, a resident of 16240 West 13 Mile road. Officers were installed at a June 24 dinner meeting at the Grosse Pointe War Memorial.

Dr. Harry Martin
New Minister at First Methodist

Dr. Harry O. Martin has been appointed associate minister of the First Methodist Church in Birmingham in a reassignment program which will save 68 Michigan Methodist ministers change posts.

He replaces the Reverend Robert A. Lawton who has been assigned to Calvary Methodist Church in Dearborn. The Rev. Lawson has been with the First Methodist Church here since June 1948. He had previously served at the Ulica Methodist Church.

Dr. Martin is a graduate of Baker University, Boston School of Theology with a Ph.D. from Boston University. He has served pastorates in New England, at the University church in Lincoln, Nebraska, St. Paul, Minn., Jefferson Ave Church in Saginaw, and for the past five years, at the Madison Ave. Methodist Church in Bay City.

Legion Posts Second Win Parking Snag

The Birmingham American Legion Post baseball team slugged out its second straight victory over the Berkeley Post, 10-6, in a sloppily played game at Pierce Field Sunday.

Winning Pitcher Mike Hefferman gave up 14 hits while his teammates committed six errors, but Birmingham made its scoring chances count as it scored 10 runs on 11 hits and five Berkeley errors.

Jerry Beck and Kirk Plack shared the catching duties for Birmingham.

LOSING PITCHER was Kaiser who was relieved in the hectic third inning by Blaney.

Sunday, June 29, Birmingham will play Royal Oak at Memorial Field, Royal Oak, Thirteen Mile and Woodward. Next Wednesday Clawson will play here at Pierce. Starting time for Sunday's game is 1 p.m. and Wednesday night's game will begin at 6 p.m.

The Birmingham nine is looking for practice games with any class D team in the area. Team managers interested in sharpening their game with the most team are asked to contact Albert C. Voss, 1835 Banbury.

City Distributes Tax Pamphlets

Birmingham tax payers will receive a leaflet along with their tax statements in July entitled, "Your City Taxes." The booklet will graphically explain the rule the taxpayer's money plays in the operation of city government. The city's personnel office has completed 5,000 of the leaflets to enclose with the statements.

NATURE NOW

By Lydia King Freshie

WHAT IS A FLOWER?

Any day in June has as its essence the fragrance, the color and symmetry of the flowers that adorn our world. But these have more serious work to do than to delight the mind and eye. For to one who divines nature's way, a flower is first of all an invention for producing the seed. It is life's insurance for the future of the species.

During the eons of time before the earth was graced with any kind of bloom, plants were reproduced by spores. This was a slow and wasteful way of propagation which is still used by such primitive forms as mosses, horsetails and ferns.

When, at the close of the Coal Age, nature finally perfected the sacred seed, she gave a terrific impetus to plant development, for seed is a complete plant embryo which needs only the stimulus of moisture and light to begin its growth.

Flowers are shaped in endless ways to accommodate the needs of the pollinating agents, whether it be bees, butterflies or the friendly wind-carrying fragrance and nectar are only bait for the visiting insect and it wanders the pollinating nature omits all these frills, thus creating a naked flower which is often so inconspicuous as to go unnoticed. This arrangement is commonly used by the grasses, sedges and by many varieties of trees.

A FLOWER may be many things to many people. The gardener looks upon his choice blooms as the ultimate in beauty, the horticulturist is about his business of pollinating, grafting and fertilizing, but the botanist sees the flower as the index of the species. Its structure at once betrays it as a buttercup, a lily or an orchid.

Flowers were long in the making and their delicate structures have left few fossils to tell the story of their 100 million year sojourn on earth. During a recent visit to the Smithsonian Institute, I passed long before one such labeled "An Unknown Flower from the Miocene Shales of Lake Florissant, Colorado." In small print could tell me only that it had five simple petals which, altogether, made a pattern no larger than a dime.

Little flower that curls in secret on your petals of unknown hue, what fragrance did you shed at noonday and who were your companions on that lonely shore?

BUT I SPOKE across an abyss of 40 million years when no man was abroad to climb the hills and valleys on a day in June to put down his knapsack, to probe the structure of a flower with inquisitive lens and to take note of that which will forever be a mystery—What is a flower? Its image rests in the mind of the beholder.

One Team Returns To Softball Play

Stunner Motor Sales nine, named with players from six teams of last season, defeated Schauer Tool Company, 15 to 12, at Howard Field Tuesday night. It marked an attempt on the part of the YMCA and others to revive interest in adult softball playing in this community. Teams wishing to play locally are asked to contact the "Y" for individual games.

Friends of the Library Name New Life Member

Mr. John W. Wading, Bloomfield Hills, has been named a life member of the Friends of Baldwin Library, James E. Tobin, president of the organization revealed this week.

Membership to the Friends of the Library is open to anyone interested and membership blanks may be obtained at the main desk in the library or by contacting Mrs. Harry Gruber, membership chairman.

Programs of interest to members are held at scheduled times from October through May.
