

The Finest For the Finest!

THE MAIN ENTRANCE TO THE NEW BIRMINGHAM HIGH SCHOOL

A school with the appearance and utility of the new Birmingham high school is exactly what our youngsters deserve. They have shown us in the past that they can make the most of their opportunities to learn and apply their knowledge later. Birmingham students have attended the nation's colleges and universities in great numbers. After turning in outstanding scholastic records, many have achieved the maximum in their chosen professions and occupations. Former students of Birmingham schools have earned the right for others to have the finest in educational facilities.

BE PROUD OF YOUR EDUCATIONAL FACILITIES

To the present and future students of Birmingham schools—those who have provided for the fine schools and teaching organization that is guiding you to knowledge want you to be proud of what is yours. Your parents and your neighbors have supported the school program generously for many years. All of the schools in the Birmingham district are modern and functional. They are well equipped and staffed by capable instructors. You are fortunate in that the citizens of the community have given you the utmost to provide a better education for you.

WE, the sons and daughters of Birmingham residents, are most fortunate in having the privilege of attending what we think is the finest high school available. There is every facility imaginable to enhance our education. From the modern, well-lighted classrooms to the most insignificant bit of landscaping, the school represents our concept of perfection. The complete school is truly a dream come true.

You, the residents of Birmingham, have made possible this wonderful school. We students want to thank you and say with deepest sincerity, "We appreciate what you have done for us, Birmingham."

IN Birmingham we have the most beautiful educational institution in the State of Michigan, and probably in the whole world. You taxpayers have been most gracious in the giving of your money for the erection and completion of this building.

This building offers the students the most complete educational facilities along with a tremendous athletic plant.

Next year we will be a class "A" school and with this great institution we should and will be the leader in anything that our school happens to undertake.
