

"A SOUND MIND . . . IN A SOUND BODY"

Birmingham Youngsters have an excellent opportunity to develop both mind and body in the new Birmingham High School which not only has the most modern and complete facilities for academic instruction, but has—

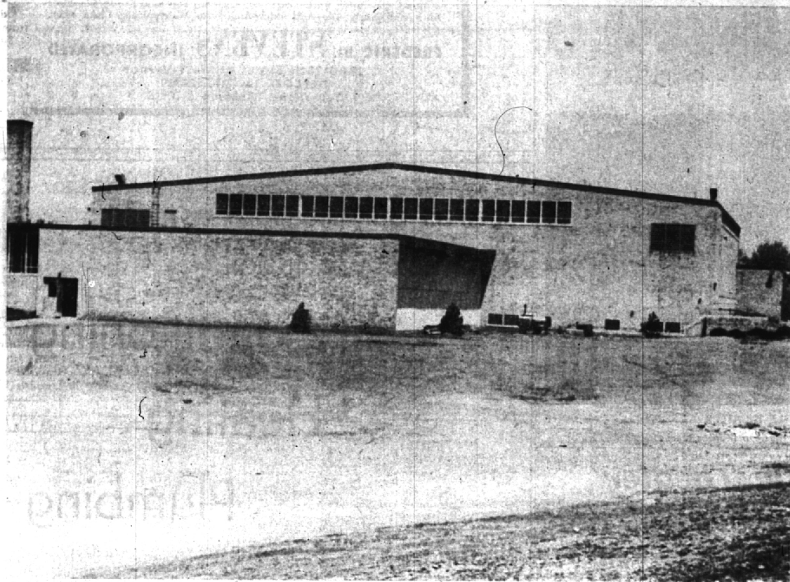

A GREAT ATHLETIC PLANT

WHICH INCLUDES
THE LARGEST

GYMNASIUM

OF ANY MICHIGAN HIGH SCHOOL

Now our boys and girls have the finest of physical education opportunities. Housing and facilities are outstanding. Class work can be broadened to include all types of intramural sports for both boys and girls. It will also provide healthful exercise and many types of specialized training in the line of physical education. Varsity teams can be trained more efficiently . . . their opponents and spectators will find every convenience in the new gymnasium. It has a basketball court for varsity games of regulation size, 94 by 50 as well as two cross courts for gym classes which are 80 feet by 50 feet. Upper levels have been utilized for athletic activity when bleachers, that will accommodate 2,800 spectators, are rolled back as they are designed to do.

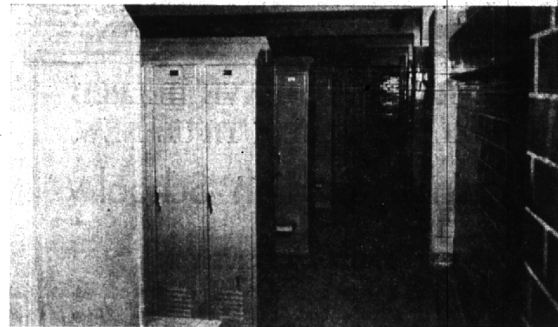

LEFT . . .

The big wing which houses this outstanding gymnasium and athletic plant has adequate parking nearby and has a large lobby which includes convenient booths for dispensing of tickets and toilet facilities for both men and women. The gymnasium is so located that all dressing rooms and equipment storage space will be easily accessible to the nearby football field and track.

. . . RIGHT

Full size lockers have been installed to accommodate 1,400 and a check-basket system will take care of 1,600 more. Shower facilities are of both gang and stall types. Similar arrangements for boys and girls are on opposite sides of the big gym floor. Varsity teams, both home and visitors, have separate dressing rooms, as do faculty and athletic officials. Training and first aid rooms are also provided and equipment drying rooms as well.
