It's All Part of 'The Big Lie'

For information about their own country, as well as about the remainder of the world. Americans mostly depend upon-their newspapers, radio and TV stations. When you learn, then, that such and such a situation is presumed to be a fact about another nation, or about one of its leaders, you take it for granted to be true. So far as American media of communication is concerned, its operators endeavor to get you the facts. Anyway, from what you read, hear and see, you make up your mind about other people and other nations.

This same mechanics of communications.

other nations.

This same mechanics of communication exists in Communist controlled nations except for the further fact that
these nations make no effort to tell the
truth, unless the truth serve their own
selfish nationalistic ends.

WE ALL KNOW, after several years of this "cold war" with Communism, that they do not tell the truth. They say we torture Chinese Red prisoners; they tell their people that the United Nations carries on a germ warfare in the Far East. They inform their people that we use prisoners of war for atomic tests, etc., etc.

Though naught but a pack of lies, this is, what the Communists, within and outside Russia, tell their people. Most of them, unfortunately, probably believe it. Thus we see the power of propoganda.

MUSSOLINI TRIED IT, Hitler tried

MUSSOLIAN TREE IT, Halfer tred it, Stalin still uses it, and witness what happened, still is happening.

Never overlook the force of informa-tion upon the human mind. That is why Truth should be the only goal of men end mations. Anything less than the Truth is all or part of the Big Lie.

Memorial Day, 1952

Tomorrow this country will pause in silent meditation . . . as cannon and rifles issue a sharp, penetrating salute . . . and as sombre, bugled hymns to faller heroes drift across the nation.

Tomorrow is Memorial Day . . . a time to remember and to resolve for the future.

Joe Smith and Fred Jones died taking sometime last year.

It was their Big Job in defending Free-

dom for their families and their nation.
But Hill 73 is NOTHING—unless we,
who are left behind, give purpose to their
deed.

LET US RESOLVE NOW, to take greater interest in the business of BEING AMERICANS, in the future of our government, to vote (and THINK before we vote) at every election, to make America stronger, free-er, greater!

This is the salute that all the Joes and Freds would prefer us tries them.

Freds would prefer us to give them, on this Memorial Day.

Any erroneous reflection upon the character, standing or reputation of any person, firm te corporation, which may appear in the columns of The Eccentric will be gladly corrected if rought to the publisher's attention.

From Our Point of View

• Unknown to his mother, it is reported that Elliot Roosevelt sold over five hundred acres of the family estate in order to get some dough for himself . . . and maybe others of the clan. This chap has run through much green cabbage in his not-too-successful business career thus far. Imagine what he would do with your taxes if ever he got a chance at them via the public trough!

• With every physical means of handling the situation in the U.S. Army's possession, it is hard to understand why and how those Commie prisoners of war on Koje Jsland could kidnap and hold an American General for three days. Here is evidence of a softness that too often asserts itself at home and abroad these days. Indeed, it may be said that on many occasions some of our governmental leaders are more inhumane toward their own fellow-Americans than they are towar foreign enemies.

• Do-gooder Chester Bowles, American ambassador to India, soon will come back to Washington to ask Congress for a bil-lion dollars to aid that far-off nation in fighting off Communism. Bowles will do this even though Nehru, India's leader, is friendly to the Communists, and hasn't even asked for an American dime. This gives you a clear idea of what is wrong with Trumon and his State Dent. They gives you a clear idea of what is wrong with Truman and his State Dept. They think they can buy foreign loyalty and strength to combat the march of the Kremlin. We hope that Congress doesn't fall for the flapdoodle of one Chester Bowles!

 How cheaply too many motorists value their own, and others, lives. In a trip that may require an hour of driving, some will take hazardous chances which, at best, save them about five minutes. Alas, though, in the principle to save a few minutes. nest, save them about nye minutes. Alas, though, in trying to save a few minutes thousands annually cut off their existence upon this earth; more thousands become crippled for life. It never pays to try to save a few minutes when driving—better to try to save one's very life.

• There are numerous "cesspools" in politics, regardless of what party may be in office. But most of them give off only a slightly noisome odor. When it comes to cesspools that really stink to high heaven, don't overlook the current one in Washington, D. C.

Now that the federal folks have eased controls on rubber, there will be no limit on the stretching of facts into fiction as the political campaign gets warmer and warmer. Honestly, the normal elasticity of political hokum exceeds the stretch of everything but imagination.

So They Say . . .

Francis B. Sayre, U. S. Representative on U. N. Trusteeship Council:
"The United Nations is the best hope of mankind today."

Gen. Peng Teh-Luai, Chinese Communist

Commander in Korea:

"We are not afraid of fighting: the more we fight the stronger we become."

Bernard Cocke, New Orleans judge:
"Any citizen or newspaper has the right
to criticize the public acts of officials."
