Survey

(Continued from Page One)

The first part concerns the purchase of all kinds of merchandise. The person is asked to list the places where items were last purchased and for what reasons they were purchased there.

Also included in the first section are questions on selection of articles, displays, sales people, prices, deliveries credit and advertising of Birmingham stores.

Part B questions the methods of travel to the business section, amount of parking places and hours the businesses are open.

To gain a more complete picture of Birmingham residents, the survey also asks the number of children in each family, ownership of the home, location of family income and the number of years each family has lived in the city.
