PLANT

THIS

FALL!

You Can Devote More Time to It!

Advantages of Fall Transplanting

1. Soil is warm and easily worked.

Sufficient moisture-in spring ground is likely to be too

3. Long planting season. Spring comes with a rush—autumn lingers leisurely into winter.

A Plants and trees are then ready to grow in the spring for the roots have been growing in the warm soil of autumn and are well rooted. Thus you get a better growth the first year.
