HERE IS HOW the proposed Barton shopping center will appear when completely finished on the north side of E. Maple, between Hunter and Pappleton. About 400 feet of frontage will be devoted to business establishments. The western third of the development will be two-story. Already under construc-

tion is the new Kroger supermarket at the east end. It is expected to be completed next spring. George Wolf of Detroit, handling the rentals, said as soon as details are settled, with other prospective tenants, the remainder of the project will be placed under construction.

THIS DIAGRAM shows how the Barton development faces along E. Maple, with parking facilities for 250-300 cars at the rear and at the southeast corner. Approval still has not been obtained from the city for use for parking of the prop-

erty lying north of the south line of Knox street. An access road, on which parking also will be permitted, parallels Maple. The Barton-Malow, Co. of Detroit is the general contractor for the shopping center.
