# Nash Ambassador

"The Finest Shock-Proof Ride In the World Today!" says Tom McCahill

THIS IS THE VERDICT OF THE NATION'S LEADING IMPARTIAL MOTOR CAR EXPERT AS REPORTED IN MECHANIX ILLUSTRATED MAGAZINE, SEPTEMBER, 1952

NEVER has an automobile received a finer tribute than that accorded the Nash Ambassador by MECHANIX ILLUSTRATED Magazine's Tom McCahill, outstanding car expert.

Tom McCahill tests all makes of cars. He puts them through back-breaking grinds. He writes of Nash:

"The finest shock-proof ride in the world today . . . best bump-leveler."

The secret of Nash riding comfort, lies in Airflex Construction, Airflex Suspension, individual coil springs. A ride will convince you.

"Aero-per-dollar bargain of the year." Here are the widest seats, front and rear, widest windshield, of any car.

"Among the best performing cars."

In the "Grand Prix d'Endurance" at Le Mans, France, the Nash Super Jetfire engine topped all American entries.

"In hill-climbing, second to none."

The Ambassador was the only overdrive-equipped car to take McCahill's "test-hill" in high.

"This year's line is by far the best Nash ever offered, and that's saying a lot."

Tom McCahill calls Farina, who styled the new Nash, the "Rembrandt of automobile design."
