Make a list of your furnishings

Yes, we'll agree it's a dull chore. It's boresome. But every home owner ought to take time to make an inventory of his household furniture, clothes, books, etc. Now, tonight.

The average home owner guesses only a fraction of the real value of his things. The reason is, he acquired them one at a time over a period of years.

You should KNOW the worth of your possessions and increase your fire insurance on them to cover replacement at today's prices.

Don't guess. Make a list.
