**MILEAGE MAKER "6" WINS SWEEPSTAKES!**

Score a blazing victory for Ford's dollar-saving gas economy! Ford's high-compression Mileage Maker "6" with Overdrive beat every car entered in this year's Mobilgas Economy Run, regardless of size or weight, to sweep the sweepstakes! Ford's winning average was 56.70 ton-miles per gallon. And Ford's high-compression 110-h.p. Strato-Star V-8 with Overdrive was right up there in economy, too, with a record of 48.55 ton-miles per gallon!  
The winning Ford was a regular production car, just like thousands of other '53 Fords you see on the road today. This 1,206-mile trip from Los Angeles to Sun Valley covered all types of driving conditions. The route threaded through city traffic, where stop-and-go driving tests an engine's fuel economy under the toughest conditions... and out along the highways of four western states.  
The Ford Mileage Maker "6" took all this in stride, maintaining a speed above the required 44.25 m.p.h. minimum, to finish 1st in the sweepstakes! What better proof is there that Ford is the thriftest car of all? What better way to show why Ford is worth more when you buy it... worth more when you sell it!

\*The AAA Contest Board determines the winner by "ton-miles per gallon" formula to include engine power for all cars, regardless of size or weight. (Based on the weight of the car and the amount of gas used.)
