News About GIRL SCOUTS

THIRD 806 — BARNUM
 The 806 in this town enjoyed a unique Third 806 Saturday. They spent most of the day visiting the Fort Museum, of particular interest to the girls was the Swiss loom which was brought from a castle in Switzerland and contained many hand-crafted pieces dating back to the 16th century.
 The Chapter quart from Frances displayed a typical mastery in that country's art and was brought from that country in its full size. Two book binding displays and examples of book binding back from the time of clay tablets to the present was of particular interest through as the girls had spent many troupe meetings last year working on their bookbinding badge. The work they had done on their Music Badge and on music in school was a happy feast upon their musical instrument.
 Other features they enjoyed was the glass display and the display of early Egyptian glass, dating back as far as 3000 years B.C. and a collection of wax dolls about a foot high that were dressed in authentic costumes of different countries.
 On the way home the girls stopped at the Military Inn and examined the coin collection. Mr. and Mrs. James Coe, Mr. and Mrs. Vernon Mathison, and Mrs. Gordon Fox accompanied the girls.
