STORIES for GROWN-UPS

FAIRY STORY

We have a fairy-ry in our yard. It is a place where grass won't grow because the fairies come out at night and dance there.

We do not like it because we cannot see any grass.

We put some nice black dirt there but the grass wouldn't grow.

We do not like that.

We put on fertilizer and seed but still the grass wouldn't grow.

We did not like that at all!

We put a little bit of lime on it—and GUESS what!

The fairies are gone because the grass is growing there now. We like fairies but are glad they went away.

We wonder where they went?

MERION BLUE

This is not a story about a little girl. Merion Blue is just a tiny grass seed. For \$4.90 you can buy an awful lot of seeds—about five million. I think you throw it around on your lawn or ground, and put water on it now and then, and mow it once in a while, and feed it from time to time, and if it does what it is supposed to do you won't have any weeds or other grasses in your lawn.

That is what "they" tell us.

BAKER

Mr. Vic is a trader. He lives in California, somewhere, and people come to see him and he cooks things for them to eat. He has a special cooker—sort of like a grill only it bakes and smokes things instead of the other way.

He must be very poor because he got somebody to make stoves sort of like his only out of some kind of iron and if he can get a lot of people to really and truly want these things for \$99.50 each, Trader Vic is in.

Some one looked at the stove and said "Dig that cool meat burner."

P. P. C. N. & T. C.

These things are so pretty you won't be able to live without them. And they save so much money and time and energy. No home or you should be without them. Other stores have some like them but not as nice as ours. Ours don't get soggy. Come in and see the P. P. C. N. & T. C.

GARDENERS' DREAM

No water, no soil, no fertilizer, no pot, no nothing. Just lay this bulb anywhere and watch it unfold its beautiful flowers.

No fooling!
