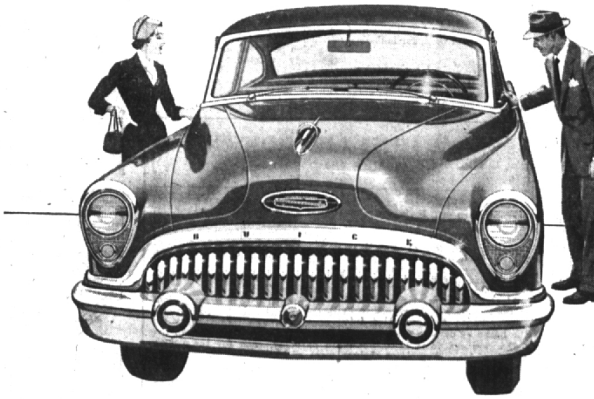
Looking for a real deal?



Now's the time to save money!

Today's local delivered price of the
BUICK SPECIAL
2-Door, 6-Passenger Sedan Model 48D (illustrated)

$2,212.00 *

Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly if dealer delivers car at his shipping point. All prices subject to change without notice.

We feature the delivered price of the Buick pictured here to make a point about the big trade-in allowances we're giving today.

The price you pay for the car itself—*the local delivered price*—is the first thing to look for when you're bargain-hunting.

It's this figure *less* what you get on your trade-in that determines your *real* cost—the dollar difference you pay.

That means—*keep your eye on the dollar difference.* The more car it buys, the better deal you make.

So with our low delivered price and the high trade-in allowances we're giving right now—we think we have a whale of a buy for you.

And when you check into things, we believe you'll discover this:

You get more room and power for your money in this Buick than in any other car on the market.

You get hundreds of pounds more automobile here—more strength in the brawnier frame, more durability in the heavier chassis, more safety in the thicker structural members—than in a long list of cars at this Buick's price or higher.

You also get a lot more in a Buick that the specifications don't show—more fun, more thrill, more comfort, more pride and pleasure.

But why waste another day—with time growing shorter, winter coming closer, and your present car getting older? If you're looking for a *real* automobile at a *real* buy in a *real* deal—come look at Buick *right now.*
