No Trucks--No Heat...
For Millions of Michigan Homes!

WHEN THE COLD WINDS blow and the snowflakes fly and you call on your furnace to keep your loved ones cozy and warm, remember—

If you burn coal, trucks keep your bin full—if you've an oil burner, trucks see that your fuel oil tank is never empty.

Yes, it would be a long, cold winter without motor transport—in more ways than one. Any way you look at it, you just couldn't live as you do without motor trucks, using Michigan's fine highway system to serve you night and day, to keep you and your family fed, clothed, warm and comfortable.

If you've got it, a truck brought it!
