New Ford Miracle Ride

Here's new freedom from bounce, pitch and sway . . . an entirely new standard of riding comfort!

If you've thought it takes gas-eating weight and hard-to-park length to give real riding comfort you ought to try this '53 Ford. For Ford's new Miracle Ride actually seems to be a carpet of smoothness even over the roughest roads. There's no bounce, pitch and sway to bother you, no uncomfortable roll on curves. Ford's new Miracle Ride marks a new era of riding comfort and quiet. It's another big reason why Ford is worth more when you buy it . . . worth more when you sell it!

While shown this optional extra cost. Equipment, accessories and tires subject to change without notice.

The New Standard of the American Road

You've got to Value Check this new Ford's 41 "Worth More" features to know why Ford is worth more when you buy it . . . worth more when you sell it!

In this new '53 Ford you'll find not only a new concept of riding and driving comfort . . . you'll find more of the things you want and need than in any other car in the low-price field.

You'll find the "Go" you need, in Ford's high-compression V-8 and Six engines (and both thrive on regular gas). You'll find the great, all-round visibility . . . the easy handling, braking and parking you need for today's traffic. And you'll appreciate beauty that "belongs," wherever you may drive. No wonder Ford is the New Standard of the American Road.

- 80% less road shock!** By increasing front wheel travel and redesigning the rubber compression bumpers, front end road shock is reduced as much as 80%. Springs are tailored-to-weight of each model, for best riding comfort, whichever model you buy.
- Automatic Ride Control!** Ford's Variable-Rate rear spring suspension actually makes the effective spring "stiffness" vary automatically as road and load conditions change. You get a smooth, level, comfortable ride on boulevard or roughest back road.
- All day comfort!** Scientifically designed contour seats, both front and rear, have thick foam rubber cushions. Non-sag spring construction is firm yet resilient. Automatic Posture Control provides the most convenient seating position for all drivers.
