Published by Exposition Press of New York, "Auction in Manassas" is ready for release.

This book-length narrative poem, the work of Ruth Russell Davis of Bloomfield Hills, sharply portrays how one central event can tie together the lives of several persons having nothing in common.

Mrs. Davis dramatically portrays her central characters, making them almost real to the reader. The poverty which each suffers, and through which each is drawn to the "Auction in Manassas" as a ray of hope is something the reader can feel.

His subjects are strongly written, showing their inner strengths and weaknesses; their hopes and fears; their struggles to maintain life and their dreams of what the auction can do to and for their lives.

"Auction in Manassas" is Mrs. Davis' third published book; her others being "Search of the Market" and "The Questing Self". A former newspaperwoman, she has been reported as a feature writer for Detroit and New York papers, and has done free-lance writing from Rome and Italy.

Fraser Pomeroy New President Of Comm. House

FRASER E. POMEROY

At a special meeting of the Birmingham Community House board on June 25, Fraser E. Pomeroy, 1220 Horchester, was named president to fill the vacancy left by the resignation of Frederick C. Pew.

Pomeroy has been a resident of Birmingham for 18 years and on the Community House board for three. He is general agent for the New England Mutual Life Insurance company in Detroit. The term to which he was elected will expire next January.

Mrs. Paul Wagner, first vice president, said the board would soon be ready to start its annual year. She added that as head of the 1952 Community House Roll Call he had done an outstanding job.

"The board of directors have found his services nearly indispensable in many phases of Community House work," she said, "and it is with real regret that we accept his resignation."

Wakefield Well Nearly Ready for Commissioning

Fire Chief V. W. Griffith said this week the new Wakefield well probably be commissioned in about two weeks.

The installation has been completed with the exception of electrical lines which were started this week.

Griffith said a test pumping had been made, using the Diesel emergency generator for power. He added, that should an emergency arise, water could be pumped from the Wakefield well by this system even though power lines are not completely installed.

Bacterial tests have been made of the water, mains carrying it have been sterilized and the well ready to be put into the city's water system.

From where I sit... by Joe Marsh

Bad Case of the "Ztutters"

Our copyboy is out sick. So the editor (me) is taking over some of his chores—which include running the addressing machine on "mulling over night."

Last week I didn't have the usual number of papers left over for sale at the office. (Cooter's) figure what had happened—until Chub Zimmer called to ask why he'd gotten 56 topics.

Then I realized—"Zimmer" is the last name the machine prints. Guess I forgot to turn it off... and it just kept grinding out Chub's name on all the remain-
