THE EYES HAVE IT

Would you like to have a few little Katahdins or Sabagos around your home? Well, all you have to do is get some seed potatoes (of which we have some) cut them so there are 2 eyes (1 eye is not enough) in each piece and plant them in rows. Then you will have a lot of little Katahdins and Sabagos.

THIS AINT FUNNY

The cost of salt for the softeners has gone up. The last increase was in Sept., 1950. We are sorry to have to pass this on to you, but such is life.

PAY ATTENTION

Your lawn now needs a light application of fertilizer. Crabgrass should be knocked off with CRAB-NOT. Chick weed should be knocked off with CWK. Broad leaved weeds should be knocked off with 2-4D. Get all this done and then you can knock off yourself. That is if you have covered the flower beds with buck wheat hulls.
