He's Driving His Cares Away!

There's a great industrialist in Detroit, and a well-known scientist in New York, and a famous statesman in Washington who will tell you that the best way to relax from the cares of the day is to get behind the wheel of a 1953 Cadillac.

And there are also thousands upon thousands of other Cadillac owners throughout America who will gladly add supporting testimony to these revealing statements.

For these motorists know, from their

own personal experience, that there is no faster or surer way to relax and refresh than to take to the highway with a smooth, comfortable, quiet Cadillac car.

It makes a man feel good just to sit behind the wheel. As he glances about his Cadillac's gracious interior, he's reminded that he has made something out of his years—and that, in itself, gives a lift to his spirits.

And then, once he's out on the highway

—well, he's as happy and trouble-free as it's possible for a motorist to be.

He is surrounded with comfort—and his driving is so relaxing and effortless and enjoyable that his mind clears, as the miles go by—and his heart grows gay and his outlook bright and hopeful.

He has literally driven his cares away! You really ought to try it sometime. In fact, you ought to try it today!

The car is waiting—and so are we.
