NUMBER ONE item on most anyone's list of auto mobile "musts" is power—the life and lift of your going.

In this Buick SPECIAL you get a valve-in-head high-compression Fireball 8 Engine that can pour out a wealth of the brilliantest power you ever held rein on—more power per dollar than you'll find elsewhere.

Number Two is ride—the way you go—the comfort and steadiness and luxury of your travel.

Every Buick has big soft coil springs on each wheel to cushion your way—and an unyielding torontube that firms and steadies your ride. Yet these are just two of the fifteen Buick ride features that cost, literally, more than a million dollars to engineer.

Then there's style, there's room, there's visibility, there's handling ease—all part of your travel—all helping to make the difference between good going and great going.

But price is very much part of the picture, too—what you pay for what you get.

So when you add in the big horsepower rating you get in a Buick, plus the extra thrill and thrift of its Fireball performance...

When you measure the inches of room, count up the many hours of comfort through the years, check off things like durability and solid satisfaction and high trade-in value...

And when you put this total against the price of a Buick—you're going to say, "Man! That's great going all the way!"

Come in and see us today or tomorrow, won't you? Equipment, accessories, trim and models are subject to change without notice.
