

Fathers have developed their art in varying degrees, and few among us do not consider it their birthright to excel in veterans' business. There have been times when our fathers have been completely unequalled.

75TH YEAR—NO. 51

THIS and THAT

By G. R. A.

TWO KINDS OF COURAGE

"There are two kinds of courage. One is a spontaneous explosion of energy, a blinding burst of some sudden emergency, the other is steadfast and enduring against repeated failures and rebuffs."

"The truest test of the 'giving heart' is the will to come bungling back every time one is knocked down. All pioneers need that kind of courage, and our people will need it again if we want to move into the world of tomorrow."

PRESIDENT EISENHOWER IS PROVIDED TO THE AMERICAN public by themselves in taking a firm grasp upon a golf club and trying to make, perhaps, a hole-in-one. Let's hope, as he gets better acquainted with the game, that he develops an increased ability to hit the ball just where it should go—including hitting the ball of correct administration policies.

PRAISE GOOD TEACHERS

It is agreed in this country that public school teachers play a most important part in the education and development of the boys and girls who eventually run the affairs of the U. S. A.

Which is the chief reason public attention is focused on the caliber of the teaching profession plus what they teach youth in the way of American civics.

A few unprincipled teachers, who obviously ought to be removed from their jobs, at the same time emphasize and recognize ought to be accorded the attention they deserve, really are in the vast, vast majority.

BIRMINGHAM'S off-street parking problem is nearer to solution now than it ever has been. The work of the Birmingham City Council and several local business concerns to pool their own privately owned lands with the city may be the best and easiest method of getting started on this most pressing of local problems.

FRIDAY'S CRITICISM

Most experienced public officials welcome the appearance and comments of citizens at these meetings, when some question of civil rights, property or other subjects are raised.

But now and then a few such officers become irritated, claiming that "we get tired of public criticism, especially when they are wrong, in whether they act voluntarily." There occur many points of disagreement, sometimes minor, but always revealing they get from the public.

So let's have plenty of discussion between officials and the public, the more honest, of course, the better, and the greater understanding from both sides of the table.

The greatest single local government problem is that given by the public school system, and it also costs us the largest single amount of the tax bill.

If you want your school taxes kept as low as possible, then surely you should refrain from requesting extra unnecessary services and the like from your school system. Every additional activity added to the current curriculum will add more expense to your annual school tax bill.
