No doubt about it... Chevrolet trucks must be the best buy!

This year—for the 12th straight production year—truck users are buying more Chevrolet trucks than any other make. That couldn't be true unless Chevrolet trucks offered more of what you want.

Already, 1953's official sales figures tell a remarkable story of clear-cut and decisive preference for Chevrolet trucks. But, this is not surprising, for truck users everywhere are discovering how far ahead of all others Chevrolet trucks really are.

They are discovering things like the tremendous new power in advanced Load-master-engines in heavy-duty models... the remarkable fuel economy... the extra ruggedness and strength of heavier, more rigid frame construction. And, in addition to all these advantages, the Chevrolet line lists for less than any other trucks of comparable size and capacity. So, before you buy any truck, stop in and see us.
