

RANDOM SHOTS

1. Now that the experts have speeded up plant growth with vitamins, hormones, etc. they are horrified at the results and have provided us with MALEIC HYDRAZIDE—a material to slow down the growth of grass. We have it in the form of STOP GRASS.

2. Since the cost of doghouses has gone up more than the cost of dogs we have found for you two (2) PREFABRICATED DOG HOUSES indurable material, gaily painted for \$19.95 and \$29.95.

3. "Good things" they say, "come in small packages". You should see our PARKER'S COMPRESSED PEAT MOSS. A youngster can handle the 50 lb. bag. BUT, when wetted it swells up to 6 or 7 times its original volume. Think of the advantage in having these fine particles IN the soil when the rains come. OH BOY!

4. A few metal flower boxes came in today. They look good at \$1.75 a piece, 24" long and green.

5. The ASPARAGUS ROOTS will not last long at the present rate of consumption—neither will the POTATOES or LILY BULBS. Do you look forward to hearing—"Sorry—sold out."

6. This is a real scoop. In a few days we will have some wonderfully convenient cast aluminum SCOOPS for your use in filling the water softener.
