**It's WHERE you buy a used car that counts!**

**When you can trust the dealer who sold you a used car, you can trust the car.**

The next question, then, is: Who can you trust most?

Ford Dealers are established business men with large investments at stake. Our business reputation depends on every business transaction—whether it is a new car sale, a used car sale or a service operation.

We want your used car business, and some day we hope to sell you a new car or another used car. And we want your service business, too!

"But," you say, "granted that your Ford Dealers have

reputations to uphold, granted that your mechanics and service facilities make it easier to put your used cars in good shape—how do you compare in price?"

Let us give you some facts and the answer will be obvious. Ford Dealers handle used cars and trucks as a service to customers who trade them for new cars. When we get overloaded with trade-ins, our capital is tied up. Like everyone else, we have to pay our bills. So we must always offer used cars at rock-bottom prices to keep things moving.

We don't have to make much of a profit on moving cars, but we do have to keep moving them out to make room for more trade-ins on '53 Fords.

These are the plain facts... and when you see the wide selection of fine makes and models we are taking in trade, you're bound to agree that the best place to buy a used car and truck is at your Ford Dealer's.
