

Traffic Deaths Continue High In September

There were 181 persons killed in traffic accidents in Michigan during September, or one more than in the same month last year. The average was six each day and the total for the month was 28 higher than the average for September during the seven-year period of 1946 to 1952.

The state police monthly statistical report also shows 5,073 persons injured and a total of 14,844 accidents, as compared to 4,257 injuries and 12,404 accidents in the same month a year ago. The increase in deaths was one per cent, injuries 18 per cent and accidents 20 per cent.

Particularly alarming was an increase of 45 per cent in run-off-roadway accidents in rural areas, resulting in a 116 per cent increase in deaths and a 44 per cent increase in injuries as compared with September last year.

THE RECORD for the first nine months of this year shows 1,355 persons killed, 41,879 injured and 131,627 accidents. This is an increase of nine per cent in deaths over the first nine months of 1947, a 30 per cent gain in injuries and a 14 per cent increase in accidents.

Estimated mileage for the first eight months of this year, the latest figures available, is 17.5 billion, or 10 per cent higher than the 16 billion in the same period last year.

Despite the increases in total deaths, however, the death rate of 8.1 per 100 million miles of travel was still up less than 2 per cent.

WE HEARD IT SAID BY—
HOWARD R. ESTES, manager of the Oakland county infirmary, says he would like to see the Birmingham merchants and members of the Halloween party committee who remembered us this year. The gift of surplus food was most welcome and greatly appreciated. Should a surplus be on hand another year, we are hoping that our home will be remembered again!
