

All Used Car Deals Subject To New State Tax

Planning to buy a used car? If you buy one after October 2 from a dealer, you will pay the three per cent sales tax as in the past. If you buy it from anyone who is not a licensed dealer, you will have to pay a three per cent use tax figured at three per cent of the amount you pay for the car. It is a new law passed by the 1953 State Legislature.

Charles Mortenson, manager of the local Secretary of State's license bureau, said both taxes are collected by him at the time transfer of title and license plate cannot be made until the tax is paid.

THE ONLY exemptions from the new use tax are:

- 1) Gifts that may be proven as bona fide.
- 2) Gifts to a beneficiary in the administration of an estate.
- 3) On titles issued to a lienholder upon repossession of an auto, motor.

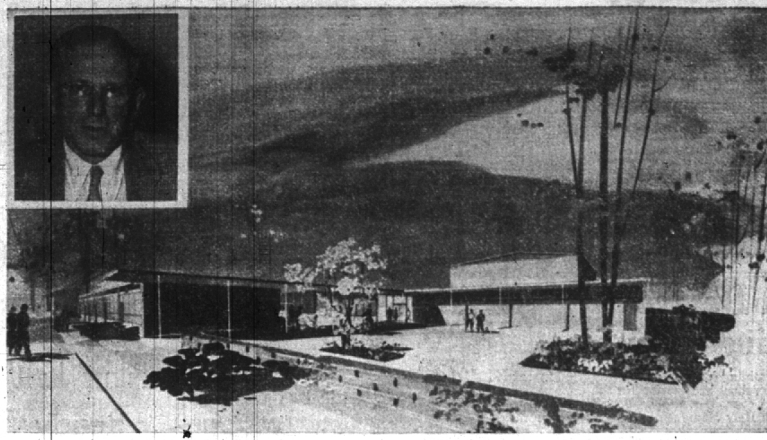

4) Sales by a public official in the administration of law.

Automobiles involved in a trade when no actual money is exchanged are sales under the new law and the three per cent use tax must be paid on each automobile involved in a trade.

The tax in such cases is based on the fair cash value and persons acquiring an automobile in this manner who do not know the fair cash value should ask a licensed automobile dealer, Mortenson advised.

SUPERINTENDENT OF TROY SCHOOLS, Stuart K. Baker (inset) was singularly honored last week when the Troy board of education elected to place his name on the new junior high school to be built near the Big Beaver school this fall. The board's action came on the eve of Baker's entry into his 25th year of service in the Troy district. He arrived in 1929 as superintendent of Big Beaver school and became superintendent of the consolidated township district in 1948 for one of the longest tenures as a superintendent in

the township's inclusion in the Oakland Rouge Sanitary District. The district, as contemplated, would serve Birmingham, Bloomfield Hills, and a section of Bloomfield and Southfield townships. Sanitary sewage from this area would flow into Detroit sewers at Evergreen and Eight Mile road.

I have lived in various parts of the United States and have taken part in a great many drives of one kind or another. But it has been here in Birmingham that I have seen the finest example of true community spirit and brotherhood in action.

I KNOW now why so many people regard Birmingham so highly; you've just got to love a commu-

Oakland county. In choosing Baker's name, the board remarked on the break with tradition in giving recognition to a living person. It appears to be the first time that a school in South Oakland county has been named after a living person, and one of the few named after a local personality. The new school, shown above as conceived by the architects, is part of a \$700,000 building expansion program currently being managed by Baker.

Cole Street Paving To Be Done This Fall

Cole street, east of Eton, will be paved this fall, city commissioners have decided. They authorized the extension of the contract with Taylor Bros. Co., Inc., which now is repaving and widening Adams road, widening and paving several other local streets.

Some doubt had existed whether private property owners on Cole would have 70 per cent of their share of the project's cost in by this construction season.

Monday night commissioners learned 71.7 per cent was in, and decided that was close enough to the goal to permit paving this year.

Elected to Bar Council

Two Birmingham men have been elected to the State Junior Bar Council at the recent convention of the State Bar of Michigan at the Sheraton-Cadillac hotel. They are Lorne S. MacDonald, 418 Southlawn, and Richard C. Van Dusen, 1725 Pine.
