Presbyterian Choir Plans Additional Services for Year

This year promises to be a full one for the Sanctuary choir of the First Presbyterian church. The choir, composed of thirty voices including four soloists, is under the direction of organist-choirmaster L. Robert Slusser. Plans are under way for several services in addition to regular Sabbath Day worship services.

A candlelight service this year will feature unusual carols and a contemporary cantata entitled "When the Christ Child Came" from the pen of composer Dr. Joseph Clokey. For this performance, harp, piano and organ accompaniment will be provided.

The Lenten Oratorio service on Palm Sunday night will be given again this year with the performance of the "German Requiem" by Johannes Brahms. This work will be accompanied by piano and organ.

Early in the spring the choir will present a program of secular music for the Supper club of the church, in which many of the choir take part individually. Theatrically presented, this year's performance will be created for the new social hall which will be ready when the new church on West Maple is completed.

Present quartet soloists of the choir are Ruth Killen, soprano; Bernice Craig, contralto; Laverne Sancarow, tenor; and Edward Johns, baritone.

The music department includes L. Robert Slusser, organist and choirmaster, Mrs. J. A. Kronmeyer, associate organist; and Phyllis Gardner, director of youth choir.

Health, Happiness, Peace Can Come Only from God, Science Speaker Declares

"Ignorance of God's true nature is the source of mankind's problems, but the knowledge of God revealed by true Christianity is immediately available to replace sickness with health, sin with purity and discord with harmony," E. Howard Hopper of St. Louis, Mo., told his listeners here Saturday evening.

Speaking under the sponsorship of the First Church of Christ Scientist, Hopper declared "To seek unto God is to seek the only true way to health, happiness, peace and the only possible defense against aggression of the elements of destruction. Knowledge of God as ever-present is essential to individual well being and humanity's salvation."

He described many experiences, his own and those of others, which

prove the power of God in the science of healing.

"As one is lead by this inspired practice to a brand new troubled beliefs of existence for a spiritual understanding of the universe and the man of God's creating, human thought is lifted above the limit, finite sense of matter and physically," the speaker concluded.

Cadillac

Special Favorite of the Ladies!

When a Cadillac comes into the service of a family that has never owned one before, it is—quite naturally—a source of great happiness to the entire family group.

But we have noticed, through the years, that the car is a very special favorite with the ladies. For, most assuredly, a Cadillac does some very wonderful and extraordinary things for a lady.

First of all, she looks her loveliest when she is seated behind its wheel. Every time she takes to the highway, she finds herself the focal point in a gorgeous picture.

And she feels as wonderful as she looks. The car's deep, luxurious cushions cradle her in magnificent comfort throughout the longest journey. The great responsiveness of the quiet, powerful engine gives her a marvelous sense of command. The car steers and brakes and drives with such miraculous ease that she actually rests and relaxes as she rides.

Of course, there are a great many other satisfactions which a lady finds in a new Cadillac car.

There is, for instance, her delight at seeing her family surrounded with every comfort and safeguard known to the science of motor car design. And there is the deep and rewarding sense of fulfillment which comes with ownership of such a prized and sought-after possession. Even parked in her driveway, the car is a tribute to her good taste and judgment... and a wonderful complement to the beauty and graciousness of her home.

To any gentleman reading this advertisement—we would like to make a suggestion: Some day soon—when the sky is bright and the time is right—ask your lady if she wouldn't like to take a ride in a 1953 Cadillac.

We think we know what the answer will be—and we'll be happy to see you, indeed.
