Community House Back on Schedule After Vacation

"Business as usual" is the order of the day at the Birmingham Community House, Bates and Townsend, which opened its doors Tuesday after a month of refurbishing for the House and vacation for the staff.

Clubs for men and women, youth groups, community-wide programs, the "hospital closet", employment office and all the many activities of the House are already in full swing.

Enrollments for the numerous adult education classes are being taken by Effie Schaffer, who said all groups would start regular sessions the week of Sept. 21.

Residents have three new classes offered this year, the mixed chorus and study of the various phases of music which will be taught by Paul Pankotan, noted concert pianist and teacher.

THE CHORAL group for those "with a love of singing" will meet Thursday evenings from 8:30 to 9:30, with the other class meeting Mondays from 8:45 to 9:45 p.m.

The third new offering will be the self-improvement class to be led by Mrs. Frederick Jeffers.

This class, planned for business women and home-makers, is an outgrowth of a similar class for teenage girls which last year proved very popular. It is scheduled for 10 weeks, from 8-10 p.m.

Mrs. Jeffers is a graduate of Manor Models of San Diego, Calif., and before her marriage was a professional model.

IN ADDITION, the House will again offer the several classes which have proved popular with Birmingham residents over the years.

These include bridge, ceramics, creative writing, drawing, gardening, interior decorating, millinery, painting, rug making, sculpture, sewing and silver working.

The two senior activities groups, one for men and women, the other strictly feminine will also be offered again this year.

Organ Society's Guest

The first in the fall and winter meetings of the Birmingham Hammond Organ society will be Sept. 17 in Grinnell's beginning at 8 p.m. A. Shanley Rosso, organist at Kirk-in-the-Hills will be the guest soloist of the evening.

SERIOUS REMINDERS

1. When applying a good lawn fertilizer such as WOODRUFF'S GRO-SOD or STABLER'S XXX at this time BE SURE to hose off the grass immediately after each spreader-full has been deposited, in order to eliminate burning.
2. Grass seed should be watered EVERY DAY for one month—preferably around 10:00 to 12:00 in the morning. If the seed germinates while the ground is dry it will die.
3. Although grass seed prices are at an all time high and will remain high through next spring it is exceedingly POOR ECONOMY to cut down on the QUANTITY to be sown.
(If a reduction in cost is advisable it is better to reduce the quantity of expensive, permanent grasses and increase the quantity of less expensive temporary grasses this year.)
4. WATCH OUT when applying crabgrass killers, when desirable grasses are in a dormant or stunted condition due to drought or other condition. We still think it a good idea to cut the grass very short in order to get most of the crabgrass out before fertilizing and seeding.
5. Why not get parts for your lawn sweeper NOW—before you need the sweeper. Or maybe you should get a new one.
6. 7½ x 7½ DUCK with handles—for that blissful moment.

LYCORIS SQUAMIGERA

A member of the Amaryllis family, this bulb is planted in September in light, loose soil in full sun or in light woodland shadow. Put tops 5" deep and 5" to 6" apart and leave undisturbed for years.

The beautiful lily-like, pinkish-lavender flowers bloom in August after the narrow leaves of early summer have entirely disappeared.
