Come in and see . . . value check . . . and test drive a Ford today!

No doubt about it . . .
Ford's the one fine car
in the low-price field!

Feature after feature . . . part after part . . .
Ford is as fine as the finest . . . yet it's priced with the lowest.
No car ever built has won such enthusiastic and growing preference as the '53 Ford . . . and no wonder. For no other car with such a wealth of fine-car features costs so little as Ford.
Yes, Ford, with all its fine-car quality, is offered at a price that's easy to pay.
You can have a Ford with a V-8 engine—the same type of engine that powers America's most expensive cars—for hundreds less than many six-cylinder

cars. And a Ford powered with the high-compression Mileage Maker Six costs even less.
Then, too, Ford's body is built like the best, with steel body panels of the same quality, and thickness as in the most expensive cars.
Ford also proves that a car doesn't need to carry gas-thirsty extra weight to "gentle" you over the bumpiest roads! For Ford's smooth, level ride blots out the bumps . . . cuts front end road shock alone up to 80%!
Also, you can have your Ford V-8 with Master-Guide, the last word in power steering. Master-Guide cuts up to 75% of turning

effort yet it leaves you with the natural "feel" of steering on the straightaway.
There are many other fine-car features, too! Ford Full-Circle Visibility . . . foam-rubber cushioned seats front and rear on all models . . . finishes that are baked on over a complete rust-proofing treatment . . . to mention a few.
It takes all these features to make a fine car truly fine . . . worth more when you buy it . . . and in resale, too! A survey of used car lots proves that people are willing to pay a larger percentage of the original cost for year-old Fords than for any other used cars. No doubt about it, Ford's your best buy!

If you're interested in used cars, be sure to see our selections!
