## A 30-Year Dream Coming True!

He used to stand on the curb in front of his father's house—and watch the Cadillacs sweep majestically by—carrying fine ladies and gentlemen on happy excursions.

That's when the dream started in his heart—and refused to leave.

Six times, before today, he has signed his name to an application for a motor car title—and, on every occasion, he knew it was a compromise.

But not this time! He is taking the keys to a beautiful 1953 Cadillac—and his 30-year-old dream is coming true.

And what a fulfillment it will be, as he takes to the highway and heads for home!

First of all, he'll get those quick glances of approval which tell him the dream he dreamed for so many years is still in the hearts of others.

And then the car's great performance will begin to unfold itself.

Silence—almost complete silence—just the soft sound of the wind slipping by—the quickest, easiest response to the accelerator he has ever imagined...steadiness and roadability and handling ease that remove all but the merest effort from managing the car.

And, oh, what marvelous comfort! It's like sitting in the easiest chair conceivable—and moving effortlessly through space.

And then, almost before he knows it, he'll be home—and in the driveway—with the family rushing out with the final voice of confirmation.

Man—this was worth waiting and working for!

And, of course, the years and the miles will add their proof as to the wisdom of his choice: dependability—long life—economy of operation—and unusual resale value.

Yes, there is every practical reason for moving up to Cadillac—as well as every personal one.

Better come in and see us today. It's probably easier than you think to make your dream of Cadillac ownership come true.
