

College Students Busy With Varied Activities

There's a lot more than books and classes in modern colleges to keep students busy today. Their activities vary from advisors, award banquets, debate leagues, concerts and oratorical contests to sororities, fraternities, school plays, swim clubs.

Lochie Fay Hart, 304 North Fourth, and Carol Ann Hogstrand, 1819 Henrietta, were among the students at the University of Missouri, Columbia, Mo., to offer comedy, music, dancing and drama in the university's Savitar Frolks this month.

John T. Hatch, Michael W. Schirmer and James H. Paterson have been elected junior advisors, students who act as counselors to freshmen, for next year at Williams college, Williamstown, Mass. Peterson, a sophomore, is a member of Delta Upsilon and the son of Hamilton H. Peterson of 886 Westwood. Michael is the son of Mr. and Mrs. E. A. Schirmer, 514 Westwood drive. He is the chairman of the daily chapels and received his numerals for participation in Cross country meets.

AMONG the group of Michigan State college students honored this month at the annual MSC Union Board Awards Banquet was James L. Buchanan, senior, and

son of Mr. and Mrs. James R. Buchanan 940 Henrietta.

One of the four University of Michigan students at the University of Wisconsin this month, attending the Western Conference Debate League Congress was Dudley Chapman, 429 Glenhurst. Representing the same college on April 17 was Daniel T. and Dorothy Rodgers, 852 Wimbledon. They appeared with the Michigan Youth Symphony in a spring concert at the Rackham Memorial in Detroit.

Having won the sophomore class oratorical contest at Albion college, Ruth N. Clinger, will compete in the Senior Horn oratorical contest on May 3 and 4. Miss Clinger is the daughter of Mr. and Mrs. L. H. Clinger, 437 Saffield. Ann Maples Patterson participated in the presentation of the and the Swin club program given last month at Wellesley college. Wellesley, Mass. A senior, Ann is the daughter of Mr. and Mrs. George D. Patterson of 420 Wadlington road.

Urge President To Stay Clear Of Indo-China

Speaking in the Birmingham home of Mrs. Wallace McLay on April 14, Mrs. George Cleary told members of the Oakland county branch, Women's International League for Peace and Freedom, that "there is no place to hide and no time to run."

Mrs. Cleary, member of the League's national board, spoke of the immediate danger of the hydrogen bomb and the moral responsibility of the United States in the possession of it. Following her talk, League members sent a telegram to President Dwight D. Eisenhower, asking that he oppose the use of United States troops in Indo-China.

THEY URGED the start of negotiations through the United Nations and Geneva Conference and the cessation of action which might involve this country in the Indo-China affair. Their message pointed up the danger of a third world war and the horrors of the use of the H bomb, saying they agreed with the President's statement that such a war would mean world annihilation. The message, written over the

Cadet at Boonville

Robert Selvidge, son of Dr. and Mrs. H. Selvidge, 3831 West Maple, has been designated a second phase cadet at Kemper Military School, Boonville, Mo., and is no longer subject to some of the regulations of the new cadet. Cadets are advanced to second phase on the basis of efficiency, high military standing, and good conduct.

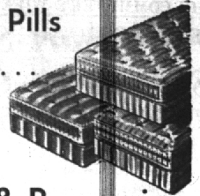

Have You Met . . .

Mr. and Mrs. Norman C. Quarters, 17004 Madeline road, who moved from Detroit? They have one son, Jack E., who is a medical student at Kirksville college of Osteopathy and Surgery and a member of the Atlas club in Kirksville, Mo. Quarters is self employed in the selling of automobile supplies and paints. Father and son are both fishing enthusiasts.

name of Barbara Rahn in behalf of the League said in closing. "Please use your influence to work for a peaceful world development."

This Wonderful New **ROPER** GAS RANGE FOR '54 Gives You More . . .

MORE Exclusive Features!
MORE Real Value!

Think of it . . . MORE speed, MORE economy, MORE convenience and easier cooking, easier cleaning! Come in . . . ask for proof of these facts . . . ask to see the ROPER PROOF-OF-VALUE chart.
You'll like the compactness and new beauty of these '54 Ropers too.

Model Shown Only \$249.75
OTHER MODELS PRICED FROM \$159.75

And LOOK AT THESE AMAZING FEATURES

- * INSTA-MATIC OVEN GUARDIAN: Lights oven, separates oven cooking, then turns oven off.
- * SPECTRO-MATIC BURNER CONTROLS: Select by color the exact Roper you want.
- * UNMATCHED COOKING SPEED
- * AUTOMATIC LIGHTING THROUGHOUT

You can get a ROPER GAS RANGE for no more than you'd expect to pay for an ordinary range.
COME IN . . . SEE THEM TODAY!

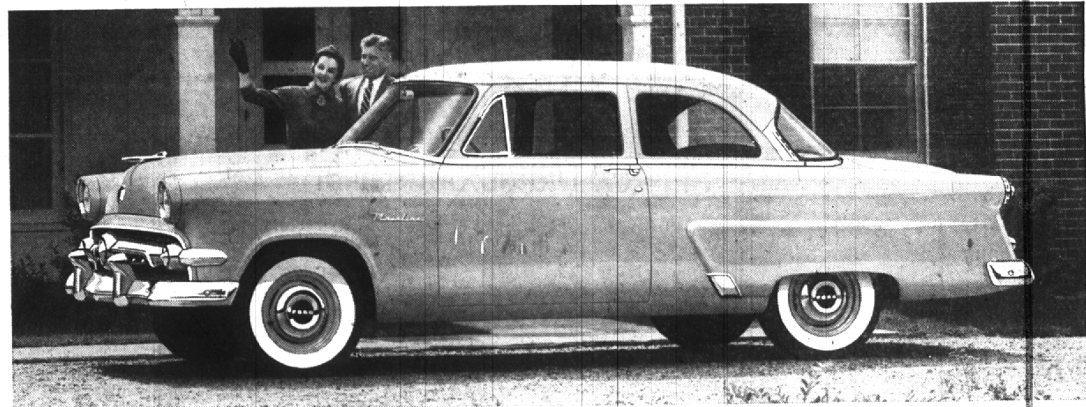

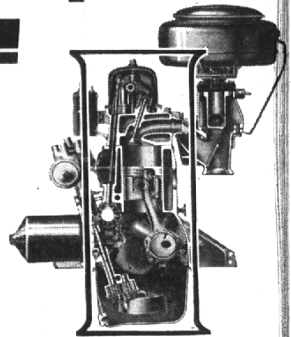

CONSUMERS POWER COMPANY

America's lowest priced low-friction SIX!

FORD'S NEW I-BLOCK SIX IS THE MOST MODERN SIX IN THE INDUSTRY . . . THE ONLY LOW-FRICTION SIX IN ITS FIELD!

Why are more and more folks who like sixes swinging to Ford's 115-hp. I-block Six? Because they're getting the most modern six in the industry . . . and for less money than practically any other six in America. Ford's short-stroke, low-friction design means less gas waste, less wear and longer

engine life. The extra-deep, "I-shaped" block means a more rigid, quieter engine. Free-turning overhead valves keep compression high. And the new high-turbulence combustion chambers, teamed with Ford's exclusive Automatic Power Pilot, bring you even more "GO" per gallon.

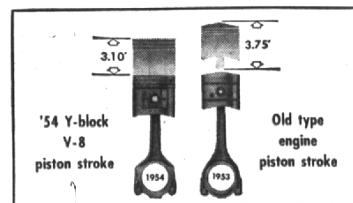

ONLY FORD OFFERS BOTH A V-8 AND SIX IN THE LOW-PRICE FIELD!

Ford is still the only low-priced car to bring you V-8 power. And this year, Ford's Y-block V-8, with its new deep-block, low-friction design, is the most modern

"right" in the industry. Both new Ford engines are available with Fordomatic, Overdrive* or Conventional Drive—the finest choice of drives in the low-price field.

HERE'S WHAT FORD'S LOW-FRICTION DESIGN MEANS TO YOU

LONGER ENGINE LIFE. Both new Ford engines are of short-stroke design. This means pistons travel less distance. Naturally, there is less friction and less wear. In both engines overhead valves have a free-turning feature which allows them to rotate to cut down wear.

MORE POWER. Because there is less friction to overcome in moving pistons up and down, there is more energy available to move the car. And because combustion chambers are wedge-shaped, fuel burns more completely . . . for even more power and less gas waste.

MORE "GO" PER GALLON. In addition to this gas-saving, low-friction design, Ford engines bring you the Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas. You won't find any of the modern advances on this page in any other low-priced car.

Worth more when you buy it . . . worth more when you sell it!
