

HEAVY EQUIPMENT RUMBLES over the site of the planned new Bloomfield Hills high school at W. Long Lake and Andover roads as rough grading operations proceed in preparation for construction. Twenty-four of the 32 acres that comprise the site were donated to the Bloomfield Hills

school district by the George Foundation. The board of education purchased the remaining acreage from the Foundation. Bids for construction of the school building are expected by the board on April 19. Completion has been scheduled for August 1955. (Eccentric Photo).

### No Action Taken On Memberships

No action is contemplated on season memberships at Springdale Golf course by Birmingham city commissioners after Robert Faustek reported that such a membership fee would necessarily be too high. Mrs. R. J. Vinton, 1538 Henrietta, submitted a letter to commissioners signed by 52 other persons asking for such a membership. Mrs. Vinton explained that the membership would serve as a convenience to city residents who regularly play the course.

### Brooklands Golf Course Facilities Open For Season

The Birmingham area's newest semi-public golf club, Brooklands, on Mickleton near Auburn and Rochester roads, has greatly increased facilities during the past winter and now offers the golfers of the area complete clubhouse facilities according to Dick Merritt, owner. The golf course, located near

Rochester and Auburn roads, was opened last summer after 12 years of inactivity and will start its second season of operation in much better shape. Merritt said. The clubhouse itself has been partly remodeled. Bar and dining facilities have been added and are in charge of Mr. and Mrs. Jack Brodie of Rochester. A number of parties and banquets have been booked for the early season. Don Rodgers will again be professional of the club and his department will occupy new quarters in the clubhouse.

## Guess how much is enough to cover your next hospital bill!

- \$10 A DAY?
- \$20 A DAY?
- \$30 A DAY?
- \$40 A DAY?

THE FACT IS, there just isn't any way of predicting a hospital bill! Yet, when you can't tell how much a hospital bill will be, how can you be sure your family is adequately protected?

And think of how important adequate protection is . . . with one in every three families facing a hospital bill each year!

Would you feel adequately protected if the hospital services you needed were to cost \$25 a day or more . . . yet to pay for these services, your protection allowed you only \$10, \$15, or some other limited amount per day?

On the other hand, wouldn't you feel adequately protected if you knew that in case of illness, you'd be automatically entitled to needed hospital services themselves? This is the Blue Cross ideal!

Not for profit, Blue Cross is the only organization for hospital care officially approved by the American Hospital Association. Over 3,000,000 Michigan people have Blue Cross. Chances are, your neighbor has it. See if he doesn't agree that there is no finer protection at any price!

**Hospital Service Protection . . . the Blue Cross way**

When you become a member of a Blue Cross Group it is like becoming the "owner" of a wide range of hospital services . . . such as bed and board, expensive extra like oxygen, drugs and medicines, operating room and so forth. Blue Cross hospital service benefits apply at over 200 Blue Cross participating hospitals in Michigan alone. And every enrolled member in your family is entitled to the same protection.

**Doctor Bill Protection . . . the Blue Shield way**

There is no problem of unpredictable cost, however, when it comes to paying doctor bills.

**Blue Cross-Blue Shield have more Michigan members than all other plans combined!**

Because, in almost every case, your doctor can tell you beforehand what his charge will be. The thing he can't tell you, however, is when you are going to need his services. So, against that need, Blue Shield offers a smart way to take doctor bills in your stride.

Blue Shield offers two basic plans—one, a straight surgical plan the other, a medical-surgical plan. Under either plan, Blue Shield pays generous, specific amounts directly to your doctor for thousands of surgical procedures, including maternity care. And in non-surgical cases, under the medical-surgical plan, Blue Shield also pays liberal amounts for your doctor's visits to you in the hospital. Often the doctor's full bill is covered.

**The cost is low**

For only pennies per day, Blue Cross-Blue Shield entitle you to the most complete protection against hospital and medical bills it is possible to obtain. One way you can help keep the cost low is by using Blue Cross-Blue Shield only when necessary. Please do not ask your doctor to put you in the hospital for diagnostic treatment which could just as easily be performed in his office.

**How to get Blue Cross-Blue Shield**

Ask your employer or your union representative how you can get low-cost Group Enrollment. A company with as few as 5 employees may qualify as a group. Check your Farm Bureau. Write or phone your nearest Blue Cross-Blue Shield office.
