AUGUST AMBLINGS

Don't take this title too blithely. While we may ramble a bit that does not mean you can get something for nothing.

- JETSAM SALE. It has been going good but, the ship is listing to starboard. This means that lawn mowers and heavy equipment are not moving. Table cloths and aprons, glass and brass are going.
- CRABGRASS needs to share your attention with your wife (or husband) and children. It does not wait until you feel like doing something about it. Pretty soon it will go to seed and-well, you'll be sorry.
- 3. Can you live on pistachio nuts alone? Well, we believe a bird needs a bit of meat now and then. Believe it or not, worms, caterpillars and bugs are a bird's tenderloins. But you must give them the cock ails. (Bird's cocktail is bird seed, water, breadcrumbs, crabgrass

Note!—American farmers will raise 30 billion dollars worth of food this year and insects will eat 26.667% of it (without paying a nickel).

- To help the farmer, thwart the birds, kill the bugs and have a little comfort for yourself, spray your yard with DD-IDE. (It is guaranteed to ah—well, to ah help.)
- 5. Do you know which the "blow" end of a lime bean is? Well, it must be the other end. Press it and if it feels spongy, pick it pronto.
- This is fun, fun, fun! Place shingles close to squash vines. Ask your son (or) to go out early in the morning, lift the shingles and SQUASH the bugs. Wgh.
- 7. If you have lily pads call us and we will tell you what

POISON POINTER

ROTENONE is fairly free from dangers of poisonous residues. Its strength deteriorates rapidly in a few days. Use it only when temperatures are 65° or over. (Over 80° in N.G.) It is terrifically useful when used

WE ARE STILL CLOSED ALL DAY WEDNESDAY FOR SOME REASON OR OTHER

And, DON'T FORGET our ship is still listing to starboard (due, no doubt, to lawnmowers).
