Cadillac

Off on an Hour's Vacation!

To be honest with you, we're not certain where he's going. He may be journeying to a branch office of his corporation . . . or he may be heading home for the day . . . or he may just be taking his afternoon "constitutional" behind the wheel.

But one thing we know for certain. He's about to embark on a little vacation. And for its length, it will be one of the most wonderful interludes a man could enjoy.

For he's about to spend an hour in his 1954 Cadillac—and here, beyond any question, is the perfect remedy for a trying day.

It will bring him physical relaxation—for his Cadillac is so comfortable and luxurious that merely to sit in the driver's seat is to rest. And the car handles and steers with such complete effortlessness that every mile is a tonic for the body.

It will bring him mental refreshment—for the car is such a joy to drive and such an inspiration to ride in that a man seems almost automatically to leave his cares at the curbside.

And it will bring him renewed enthusiasm and interest—for every moment a man spends with his Cadillac serves as a stimulating reminder of his past accomplishments—and acts as a wonderful inspiration for planning and thinking out the future.

All this is the very essence of Cadillac value. All cars offer transportation—and varying degrees of satisfaction. But it remains for Cadillac to provide a therapeutic for the mind and body of a work-weary man.

In this glorious respect, there are simple two types of automobiles: Cadillacs and all the others.

Come in sometime—when life has grown stale with the toil of the day—and take an hour's vacation in a 1954 Cadillac.

We know it will be the most refreshing sixty minutes you ever spent on the highway—and we'll be delighted to provide the car at any time!
